## ASIC Benchmarks

ASIC issues Regulatory Guides which are intended to improve disclosure of information to retail investors to better enable them to understand and assess the risk, rewards and suitability of the mortgage investment schemes. Angas adopts these guidelines in PDS for Angas Prime as part of its compliance and disclosure regime for best industry practice. ASIC has set-out eight benchmarks and invites unlisted mortgage scheme issuers to identify whether they satisfy each benchmark, and if not, why not.

In the Angas Prime PDS dated 10 December 2015, Angas addressed those benchmarks. Those benchmarks – and Angas’ disclosure against them – are replicated below. Information concerning the benchmarks has been updated where required. Angas recommends that investors read the following material in conjunction with the current Angas Prime PDS.
